INDEX OF AUTHORS AND PAPERS

Abdalla, M.S., Ahmed, M.M.A. and Obada, A.-S.F., Multimode and multiphoton processes in a non-linear Jaynes–Cummings model 170 (1991) 393
Agarwal, B.K., see Harsh, O.K. 170 (1991) 673
Aguilar, A. and Braun, E., Exact solution of a general two-dimensional Ising model: the partition function 170 (1991) 643
Ahmed, M.M.A., see Abdalla, M.S. 170 (1991) 393

Barber, M.N., Statistical mechanics: a perspective on the work of R.J. Baxter 170 (1991) 221
Bertoglio, N. and Martínez, S., Measure preserving Markov processes densely similar to endomorphisms 170 (1991) 439
Blok, V.R. and Krochik, G.M., Transient Raman gain stimulated by a noise pump 170 (1991) 355
Bobrov, V.B. and Trigger, S.A., On the theory of a weakly nonideal Bose gas 170 (1990) 187
Bobrov, V.B., Tovstopyat-Nelip, I.I. and Trigger, S.A., The distribution function of electrons and the conductivity of a charged particle system in a weak electric field of arbitrary frequency. II. The case of a partially ionized plasma 170 (1990) 198
Brady Moreira, F.G., see Fernandes, J.B.A. 170 (1990) 43
Braun, E., see Aguilar, A. 170 (1991) 643
Buishvili, L.L., Menabde, M.G., Gumberidze, M.E. and Sumenko, O.V., "Magnus paradox" and averaging method 170 (1990) 143

Chmielowski, W., Knast, K. and Kielich, S., Hydrodynamical field fluctuations in a non-equilibrium quasi-stationary state due to a temperature gradient. II. Application to light scattering 170 (1991) 624

De Cesare, L. and Mercaldo, L., The d-dimensional sine-Gordon model in the presence of random fields 170 (1991) 663
De Haan, M., Kinetic derivation of the second virial coefficient for a quantum gas 170 (1991) 571
De Luca, M., Discontinuity waves in electrically polarizable media 170 (1990) 211
Dodonov, V.V., Klimov, A.B. and Man'ko, V.I., Exact propagators for Lagrangians with higher derivatives in quantum mechanics 170 (1991) 595
Dohčević, Z., Grujić, P. and Jovanović-Kurepa, J., Semiclassical study of He doubly exicted Rydberg states 170 (1991) 447
Dotsenko, Vl.S., Selke, W. and Talapov, A.L., Cluster Monte Carlo algorithms for random Ising models 170 (1991) 278
Drzewiński, A. and Sznajd, J., On the real-space renormalization-group study of some 2D quantum spin systems 170 (1991) 415

Ebeling, W. and Leike, I., Kinetics of ionization–recombination processes in nonideal hydrogen plasmas 170 (1991) 682

Felderhof, B.U., Hydrodynamic response of a sphere in a plane-wave flow 170 (1990) 105
Fernandes, J.B.A. and Brady Moreira, F.G., Thermodynamics of a frustrated spin system II: exact calculation and scaling 170 (1990) 43

Fisher, M.E., see Gelfand, M.P. 170 (1991) 462

Gelfand, M.P. and Fisher, M.E., ERRATUM to physica A 166 (1990) 1, Finite-size effects in fluid interfaces 170 (1991) 462
Gitterman, M. and Weiss, G.H., Some comments on approximations to the master equation 170 (1991) 503
Godia, S.P., see Harsh, O.K. 170 (1991) 673
Grujić, P., see Dohčević, Z. 170 (1991) 447
Gumberidze, M.E., see Buishvili, L.L. 170 (1990) 143

Harsh, O.K., Godia, S.P. and Agarwal, B.K., Surface plasmon dispersion relation for normal and tangential modes 170 (1991) 673
Heermann, D.W., see Nielaba, P. 170 (1991) 471
Helgesen, G. and Skjeltorp, A.T., Order–disorder transition in a system of magnetic holes 170 (1991) 488
Holz, A., Gauge theory of two-dimensional spin-1/2 Heisenberg antiferromagnet 170 (1991) 511
Holz, A., Semiclassical action of two-dimensional spin-1/2 Heisenberg antiferromagnet 170 (1991) 543
Huber, G., Scheidegger's rivers, Takayasu's aggregates and continued fractions 170 (1991) 463

Indekeu, J.O., see Maritan, A. 170 (1991) 326

Jan, N., see Kelly, K. 170 (1990) 52
Jovanović-Kurepa, J., see Dohčević, Z. 170 (1991) 447
